

AKSHYAT MANANDHAR

Software Developer

Balkhu, Kathmandu, Nepal | 9808266816 | manandharakshyat@gmail.com | <https://github.com/akshyatman>

PROFESSIONAL SUMMARY

Results-driven Software Developer with over two year of hands-on experience building and maintaining scalable, high-performance applications using Golang and modern web technologies. Experienced in RESTful APIs, database optimization, and cross-functional software development.

EXPERIENCE

Freelance Software Developer

October 2025 – Present

BarberBooking Application (launching Soon Testing Phase)

- Developed and delivered custom web and mobile applications for clients, handling requirements, implementation, API integration, and deployment.
- Built scalable backend services and responsive front-end experiences using Node.js, React, React Native, and PostgreSQL.
- Worked directly with clients to translate business requirements into reliable software solutions and deliver projects from development through completion.

Upaya City Cargo Pvt. Ltd.

October 2024 – September 2025

Full Stack Developer

- Architected and delivered high-performance RESTful APIs in Golang and Node.js, engineering optimized query strategies that improved backend response times and system efficiency.
- Partnered closely with designers, project leads, and front-end and back-end engineers to translate product requirements into reliable, scalable technical solutions.
- Spearheaded an overhaul of legacy SQL queries and API endpoints, re-engineering core data access logic to improve application speed and reliability.

Going Genius Pvt. Ltd.

January 2024 – April 2024

Backend Developer Intern

- Engineered robust RESTful backend APIs in Node.js, implementing optimized query logic to maximize throughput under real-world conditions.
- Collaborated cross-functionally with designers and front-end engineers to ensure seamless end-to-end functionality.
- Diagnosed and resolved critical software defects, strengthening application stability and overall code quality.

iMark Pvt. Ltd.

October 2020 – October 2021

React Native Developer

- Designed and built polished user interfaces across iOS and Android using React Native, delivering a consistent cross-platform experience.
- Worked closely with designers and back-end engineers to ensure pixel-accurate implementation and smooth front-end/server integration.
- Diagnosed and resolved complex cross-platform bugs, enhancing application performance, stability, and user satisfaction.
- Applied clean architecture and practical database design to produce maintainable, production-ready software.
- Implemented responsive interfaces and backend services tailored to individual business requirements.
- Delivered custom applications for clients from requirements gathering through development, API integration, testing, and deployment.

Golang / Node.js, React / React Native, PostgreSQL

PROJECTS

Barbershop Booking Application

- Built the application with a focus on a smooth booking flow, scalable backend architecture, and reliable data handling.
- Designed RESTful APIs and database workflows for users, services, availability, and appointment management.

- Developed a full-stack booking platform enabling customers to browse services, select available time slots, and create appointments.

Technology Used Node.js, React / React Native, PostgreSQL,AWS

Otech Private Limited Website

Technology used: React,AWS

EDUCATION

Islington College — London Metropolitan University

2021 – 2024

BSc (Hons) Computing, Second Upper Class Honours

Modern Indian School

2019 – 2021

All India Senior School Certificate Examination (CBSE), Final CGPA: 3.5

CERTIFICATES & ACCOLADES

- AAA Scholarship Award — Islington College (2023/24) — Awarded for outstanding academic performance, aspiring attitude, and remarkable attendance.
- AAA Scholarship Award — Islington College (2022/23) — Awarded for outstanding academic performance, aspiring attitude, and remarkable attendance.
- AWS Academy Graduate — Machine Learning Foundations (September 2022) — Completed the 20-hour AWS Academy Machine Learning Foundations course.
- AWS Academy Graduate — Cloud Foundations (August 2022) — Completed the 20-hour AWS Academy Cloud Foundations course.

SKILLS

Programming Languages: Golang, JavaScript, Python, SQL (MySQL) | Frameworks: Gin, React, React Native, Django, Node.js

Tools & Platforms: IntelliJ IDEA, Visual Studio Code, Android Studio, Xcode, GitHub, GitLab, Postman | Operating Systems: macOS, Windows

Professional Skills: Project Management, Time Management, Critical Thinking, Cross-Functional Communication, Multilingual Fluency
